2195 Front Street  
Logan, Ohio 43131  
June 23, 1977

Dear Mr. Bann:

On February 8, 1977, the writer and Mr. Steve Hamlin visited your plant and discussed the on-site disposal of certain wastes generated by your processing techniques.

You agreed at that time to submit specific chemical analysis of the material being disposed of plus a modification of your operational report to include the method by which the site is to be closed.

To date, we have not received any correspondence relative to the above matters discussed. We would like to once again request that you submit the information as agreed.

Should you have any questions or need assistance, please contact me at the above address or telephone me at 614-385-8501.

Thank you for your consideration in this matter.

Sincerely yours,

Jerry K. Roberts  
Sanitarian
